

CHARGE Anywhere

Tap to Phone

Turn Android Devices into Secure Payment Acceptance

Tap. Approve. Done.

Customers simply tap their contactless card or mobile wallet to the back of the device.

Transactions process securely in seconds, with clear on-screen prompts and instant approval confirmation—just like a traditional terminal, without the terminal.

Built for Speed, Simplicity & Scale

- No Extra Hardware**
Eliminate the cost, logistics, and delays of deploying dedicated payment devices.
- Intuitive Checkout**
Clean, guided transaction flow designed for fast staff adoption and minimal
- Mobile-first Payments**
Ideal for retail associates, field services, line-busting, pop-ups, delivery, and curbside payments.
- Easy POS Pairing**
Designed to integrate seamlessly into existing POS and commerce ecosystems.

CHARGE Anywhere Tap to Phone

Reliable, Secure Ready for Anywhere

CHARGE Anywhere Tap to Phone is built on industry-approved security standards to protect every transaction.

Accept the Payments Customers Expect

- ✓ Contactless EMV cards
- ✓ Mobile wallets (Apple Pay®, Google Pay®, Samsung Pay®)
- ✓ Major card brands including Visa®, Mastercard®, American Express®, and Discover®
- ✓ Manual card entry (where permitted)

Enterprise-Grade Security

- ✓ PCI-compliant SoftPOS architecture
- ✓ Encrypted NFC transactions
- ✓ Secure transaction processing with trusted acquiring partners
- ✓ Designed to meet evolving card-brand and network requirements

Processor & Platform Ready

- ✓ Supports leading payment processors including TSYS and Fiserv
- ✓ Works as part of the broader CHARGE Anywhere payments ecosystem
- ✓ Complements CHARGE Anywhere “Go” mobile terminals for a flexible, hybrid deployment strategy

Where Tap-to-Pay Fits Best

- ✓ Retail & specialty stores
- ✓ Field services & in-home payments
- ✓ Events, pop-ups, and mobile merchants
- ✓ Line-busting and assisted checkout
- ✓ Temporary or seasonal payment environments

• Supported on Android devices only

• OS requirements: Android 13+

• Mobile device must support NFC

One Platform. Multiple Ways to Get Paid.

Tap to Phone (SoftPOS) is part of CHARGE Anywhere's broader mobile payments strategy—giving partners and merchants the flexibility to deploy phone-based acceptance, purpose-built Go terminals, or both, all under one payments platform.
